

At Ilminster Avenue E-ACT Academy we recognise the importance of PE to the health and wellbeing of our children. We also value the impact that high quality teaching of PE and the participation in extra-curricular activities can have on children's concentration and attainment.

We are committed to ensure that all pupils receive a *minimum* of 2 hours of PE per week. Due to the sports funding provided by the government we have been able to employ sports teachers. The sports teachers work alongside the teachers to deliver high quality P.E lessons as well as providing a wide range of after school sports clubs, both for team and individual sports.

### **What is the Sports Premium?**

The government is providing funding of £150 million to provide new and substantial primary school sport funding. The funding is being jointly provided by the Departments for Education, Health and Culture, Media and Sport, and will see money going directly to primary school Headteachers to spend on improving the quality of sport and PE for all their children. This year each school will receive £16,000 plus an extra £10 per pupil each year for the next two years - here at Ilminster Avenue that will mean around £19,150 a year. The money can only be spent on sport and PE provision in schools.

## SPORTS PREMIUM FUNDING IMPACT STATEMENT

**2017-18 - £19,150**

## Ashton Park Sports Partnership

Ilminster pay into the South Bristol sports partnership run out of Ashton Park Secondary school. The partnership gives access to staff CPD, fixtures / festivals, PE networking days, practical workshops, national governing body affiliated courses and equipment boosts.

The impact of the partnership has given 75% of KS1 and KS2 access to at least one extra-curricular competition last year; this has risen from last year's 54%. Prior to working within the partnership and employing a Sports Coach in school, no child had access to competitive sport. This is significant progress.

The partnership also gives us the skeleton from which we run our KS2 curriculum delivery and extra-curricular club program. All the factors again focus back on increasing children enthusiasm and access to sport both in and out of school. The extra-curricular program has run over twenty different clubs across the academic year; this is up from the fifteen the year before.
